

What should we keep doing to support wellbeing next year?

- having a calm corner in our classroom that we can go to if we feel we need to
- the emotion registers help us because it helps us communicate how we are feeling with our teachers
- we enjoy the lunchtime sports clubs because it is fun for us to play with our friends and we get to experience new sports
- having an opportunity to have space and a place for us to calm down if we are upset
- the concerns and suggestions box is good because we are able to share our worries and think about how we can solve it
- we like the positive encouragement our teachers give us
- we like our class positivity jar that has positive phrases to make us feel better

St Catherine's Primary School

School council meeting

June 2026

What acts of kindness have you seen in school recently?

- when a child tripped over and hurt themselves another year group helped them
- people opening the doors for others and children continuing to hold the door for others in a chain reaction
- children are being inclusive and making sure that everyone can be included in their games and being respectful
- when someone was sad their friends and classmates comforted them and made them feel better
- a child was sat on the 'buddy bench' and someone went over and saw if they were ok
- I saw an older child tying a younger child's shoelace because they were stuck
- When we need support in class our talk partners help us

Marianne- 2S
Finn- 2G

Arthur - 3MG
Tamaira- 3FW

Daisy - 4E
Caitlin- 4F

Faran - 5K
Ellie- 5B

Leo - 6P
Ariel - 6S

What helps you most when learning a new maths topic?

- using resources e.g. counters to help support me
- the starter activity is like a little warm-up for our learning we will be doing
- our teacher tells us what topic will be coming up next so we know in advance (some people might be pre-taught the learning)
- the maths book marks help us because it has key words and learning
- our teacher has a positive approach which helps us have a more positive attitude
- We so fluency questions first to build our confidence

EBI:

- doing a maths game linked with our previous topic to test our knowledge
- learning more songs that link with our maths learning like we do in Y4 with our times tables

What learning experience has been the most memorable?

- Our residential trip to Tolmers because we all learnt more about what makes great teamwork and we built on skills such as shelter building
- It was really interesting learning about the heart and how it functions and controls the body
- Our PE lesson where we able to lead in the session and managed our group and their activities
- Our visit to Westminster Cathedral was very memorable because we got to see real life animals in the mass retelling the nativity story
- I enjoyed our Egyptian themed day where we were able to act out the story of Cleopatra and make different items that linked with the Egyptians
- I enjoyed our trip to Barnet museum and Barnet church because it was quite amazing to learn that there was a war right in the area we live
