

Dear Parents and Carers

Please find attached some important and useful information regarding the reopening of school next week. Hopefully this will address many of the questions that have been sent through to us in the last couple of days. We have also attached the finalised risk assessment document for reopening, together with the link below to the Government Guidance for the reopening of schools.

[Guidance for Schools on full opening from the start of the autumn term](#)

If you have any further questions regarding school reopening please address them to the office email.

We look forward to seeing you all next week.

Best wishes

St Catherine's School
