

There's Nothing That You Can't Do

Verse 1

David was a shepherd boy, young and small;
not like his brothers: big, strong or tall,
but God chose him to be king over all
because he had a pure heart.

Goliath was colossal, scary and brave.
A Philistine fighter, put men in their grave.
He was bigger than David, bigger by far,
but what he didn't understand is...

Chorus

It doesn't matter what you look like,
It matters what's inside your heart.
Faith, hope and love are more important.
That's how it's always been from the start.
We've always been told when you're bigger, you're stronger
but David knew that wasn't true.
God was with David and when God is with you,
there's nothing that you can't do.

Verse 2

Goliath had armour and weapons and might.
David was less than half his height,
But David believed he could win this fight
with a slingshot, some stones and his song:
I'll always be followed by kindness and love.
My shepherd is God in the heavens above.
In the darkest valley He'll be with me,
so what you need to understand is...

Chorus

It doesn't matter what you look like,
It matters what's inside your heart.
Faith, hope and love are more important.
That's how it's always been from the start.
We've always been told when you're bigger, you're stronger
but David knew that wasn't true.
God was with David and when God is with you,
there's nothing that you can't do.

Final Chorus

It doesn't matter what you look like,
It matters what's inside your heart.
Faith, hope and love are more important.
That's how it's always been from the start.
We've always been told when you're bigger,
you're stronger, but David knew that wasn't true.
God was with David and when God is with you,
there's nothing that you can't do.
There's nothing that you can't do.
There's nothing that you can't do!

Doesn't matter
What you look like
What's inside
your heart? Faith, hope and love are
more important.
David knew.
