Publication Scheme on Information Available under the Freedom of Information Act 2000

1. Introduction: what a publication scheme is and why it has been developed

- 1.1 This publication scheme has been written with regard to the Freedom of Information Act (2000) and the Data Protection Act (1998). We conform to both these acts when responding to Freedom of Information enquiries.
- 1.2 One of the aims of the Freedom of Information Act (2000) (which is referred to as FOIA in the rest of this document) is that public authorities, including all maintained schools, should be clear and proactive about the information they will make public.
- 1.3 To do this we must produce a publication scheme, setting out:
 - The classes of information which we publish or intend to publish;
 - The manner in which the information will be published; and
 - Whether the information is available free of charge or on payment.
- 1.4 The scheme covers information already published and information which is to be published in the future. All information in our publication scheme is available for you on our website to download and print off or available in paper form.
- 1.5 Some information which we hold may not be made public, for example personal information.
- 1.6 This publication scheme conforms to the model scheme for schools approved by the Information Commissioner.

2. Aims and Objectives

2.1 The school aims to:

Build on our

- High standards of social, emotional, academic, creative and physical achievements
- Delivery of stimulating and high quality teaching and learning
- Welcoming and caring school community

By providing

- A safe and happy school where children are listened to and their contributions valued
- A school where children have a positive and successful learning experience
- An inclusive school, which celebrates diversity and is accessible to all
- A school which promotes excellent behaviour, where bullying, racism and sexual harassment are not tolerated

By encouraging children to

- Do their best through praise and celebration of effort and achievement
- Have respect for themselves, others and the world in which they live
- Work individually and be effective communicators

By having effective partnerships with

- All children
- Their parents/carers and other family members
- The local community

Thereby ensuring our leavers take with them

- The desire, curiosity, confidence and skills to continue to learn
- Friendships and the ability to form positive partnerships
- Happy memories, ambitions and dreams

and this publication scheme is a means of showing how we are pursuing these aims.

Data Protection Good Practice Note Taking Photographs in Schools

Aim of this guidance

This Good Practice Guidance is aimed at Local Education Authorities and those working within schools, colleges and universities. It gives advice on taking photographs in educational institutions and whether doing so must comply with the Data Protection Act 1998.

Recommended Good Practice

The Data Protection Act is unlikely to apply in many cases where photographs are taken in schools and other educational institutions. Fear of breaching the provisions of the Act should not be wrongly used to stop people taking photographs or videos which provide many with much pleasure.

Where the Act does apply, a common sense approach suggests that if the photographer asks for permission to take a photograph, this will usually be enough to ensure compliance.

- Photos taken for official school use may be covered by the Act and pupils and students should be advised why they are being taken.
- Photos taken purely for personal use are exempt from the Act.

Examples

Personal use:

- A parent takes a photograph of their child and some friends taking part in the school Sports Day to be put in the family photo album. These images are for personal use and the Data Protection Act does not apply.
- Grandparents are invited to the school nativity play and wish to video it. These images are for personal use and the Data Protection Act does not apply.

Official school use:

- Photographs of pupils or students are taken for building passes. These images are likely to be stored electronically with other personal data and the terms of the Act will apply.
- A small group of pupils are photographed during a science lesson and the photo is to be used in the school prospectus. This will be personal data but will not breach the Act as long as the children and/or their guardians are aware this is happening and the context in which the photo will be used.

Media use:

- A photograph is taken by a local newspaper of a school awards ceremony. As long as the school has agreed to this, and the children and/or their guardians are aware that photographs of those attending the ceremony may appear in the newspaper, this will not breach the Act
